Type of fund

For the purpose of the prescribed financial statements of the Fund, the Fund is classified as a defined contribution fund. The Fund is also approved in terms of section 1 of the Income Tax Act, Number 24 of 1981, offering a pension and provident section.

Benefits of the Fund

The Fund is classified as a defined contribution fund. It offers no investment guarantees and the value of every member's investment will be determined by reference to net contributions received for the member and net investment returns generated by the selected investment administrator, in terms of the agreement entered into between the investment administrator and the Fund.

The Fund offers a living annuity pension arrangement. Annuitants may choose the level of income required, which may not be less than 5% of the pensioner's capital at the beginning of every year and may not exceed 20% thereof. Any balance remaining in the pensioner's account upon the death of the pensioner can be transferred to a designated survivor, who will become a pensioner of the Fund.

The Fund offers pooled pensions where the employer has elected to provide such a benefit from the employer reserve.

The Fund offers an annuity to beneficiaries of deceased members.

The Fund offers a default life annuity to members. The life annuity is underwritten by MMI Holdings Namibia Limited, a Namibian insurance company.

The Fund offers contributory membership to employees within an employer group, to contributory individuals as well as dormant membership to former employees who wish to preserve their retirement capital tax efficiently.

Death, disability and other benefits arranged by the participating employer for its members in addition to the member's share in the Fund are fully reinsured and range from lump sum benefits to annuities for members and dependents of former members.
